

2019 HIGHLIGHTS

In addition to sponsoring the weekly operations of the Market, your sponsorship makes it possible for us to offer experiences and events that make our market unique. Here is what we have planned for 2019:

Cooking Demonstrations

Once a month guest chefs will grace the Market, preparing a signature dish from Market produce for the enjoyment of our visitors.

Music

Help us host a live musical act every single week of the season! Your support allows the Market to compensate the talent that provides the soundtrack to our eating, shopping, and socializing.

Non-Profit

We have a dedicated tent available on a rotating basis to non-profit organizations that are focused on livability in the Northeast community and food and sustainability issues in the region.

Children's Tent

Every week the Market will host programming to help educate kids about sustainable behaviors focused on food and art. Your support ensures the Market has the supplies necessary for these fun-learning experiences.

Zero Waste Station

The Market was awarded a Business Recycling Grant from Hennepin County. We upgraded our recycling and composting bins, improved signage, and transition our prepared food vendors to 100% compostable foodservice ware. We have an entire tent dedicated to recycling and education on the topic.
